CLUBS OF AMERICA, INC.
IS - MISCELLANEOUS

The Philadelphia Division by letter dated 9/22/66, furnished the Los Angeles Division with Issue No. 24 dated July, 1966, entitled "FLYING SAUCERS INTERNATIONAL", which is the official journal of the Amalgamated Flying Saucer Clubs of America, Inc. The Philadelphia Division received the magazine from Mr. JARVIS H. COOPER, IRS, 401 North Broad Street, Philadelphia, Pennsylvania on 9/19/66. Mr. COOPER stated he subscribed to the magazine because his son had exhibited an interest in flying saucers and outer space. He said that on pages 2 and 3 of Issue No. 24 was an article which he believed expounded the Communist Party (CP) line.

For the information of the Bureau, the International Headquarters of the Amalgamated Flying Saucer Clubs of America, Inc. is located at 2004 North Hoover Street, Los Angeles, California. The article, on pages 2 and 3, were allegedly written by Master KALEN-LI RETAN, Head of the plant KORENDOR, which was received on 5/4/66 by special directional short-wave radio by BOB RENAUD.

The indices of the Los Angeles Division contain no information identifiable with RENAUD, and no investigation has ever been conducted on captioned organization.

No further action is contemplated in this matter by the Los Angeles Office, UACB.

The foregoing is furnished to the Bureau for information.

BRIGHT WORLD IN HANDS OF SAUCER MOVEMENT

(Editor's Note: This special message was received from Master Kalen-Li Retan (head of the planet Korendor, about 400 light years distant) on May 4, 1966 via special directional short-wave radio by Bob Renaud, the young electronic-technician whose remarkable story we printed in issues #18, 19, 20, 21, and 22, and which will be continued in our next issue.)

Since Bob's initial radio contact in 1961, he has talked with the crew of a spacecraft as he watched them on his special TV screen in his home — and eventually met his contacts in-person; visited their undersea and underground bases on our planet; was taken aboard many of their spaceships; and was actually allowed to pilot two of their small scout craft — one on a short solo flight.)

"Kalo (Hello), friends. We will get directly to the point of our message to you. Frankly, we are appalled at the state of Earth at present. Despite our constant warnings and even our actual intervention in some instances, the condition upon your planet grows steadily worse.

One subject on everyone's lips these days is Vietnam. From a little civil war, it has grown steadily and inexorably into a full scale conflict between the world's three major powers: the United States, the Soviet Union, and Communist China.

Many influential people have used the approach of patriotism and love of God and Country to twist decent human feelings into dangerous channels of thought and action. With their charges of treason and sympathy with the enemy, they have aroused a good portion of the populace to a state of fear, distrust, and hatred of those who seek peace and love. Unfortunately, because some unconventional individuals have been associated with the peace movement, that entire operation has been seriously hindered.

Your government is a military puppet, a mere parrot of the monstrosity that is the Military-Industrial complex. Your senators, except for a few, are robots, speaking what they are told to say.

Your President is, unfortunately, a pawn of their needs and demands. We have contacted him several times concerning the state of affairs, and he has said that he could do nothing to change them, for if he were to speak out against the Asian conflict, he would be removed. This is what happened to the late Mr. Kennedy who, in his great humanitarianism, was reluctant to sacrifice his ideals and his visions for the sake of the Military Industrial octopus. He paid the supreme penalty for his efforts in behalf of

humanity.

Make no mistake. Your government is not in the White House or the Congress. IT IS IN THE PENTAGON, AND IN THE HEADQUARTERS OF THE VAST "DEFENSE"-ORIENTED INDUSTRIES. It is THEY, not the President or the Congressmen, who run the United States. The facade government is merely to allay undue alarm or suspicion of the people.

Examine another aspect of the Asian war, the ECONOMIC side. Do you recall that, in the stock reports just recently, the Dow-Jones average dropped sharply BECAUSE OF A RUMOR THAT NORTH VIETNAM HAD MADE A PEACE BID? Does the staggering implication of this news evade you? Stock prices suffering a heavy loss because of a rumor that peace might come to pass!

This thought is most distressing. Your economy relies so heavily upon war and destruction, that if it were to stop, THE UNITED STATES ECONOMY WOULD SUFFER A MASSIVE DEPRESSION! Your money system would collapse like a house of cards. Millions would be unemployed, sick, hungry and homeless. Tremendous industrial complexes would close their doors.

The utterly appalling fact is this: WAR IS PROFITABLE. Highly so! Every major conflict has been accompanied by a strong peak in your monetary prosperity. Peace has usually been economically painful!

After World War 1, the nation coasted for a while upon the fat put on during the boom of the war years. In 1929, the bottom fell out. After the Korean War, in the 1950's came another recession. What comes after Vietnam? No one knows, and no one wants to find out. The war in Vietnam is bringing an unheard-of degree of affluence in the United States. Why kill a good thing by ending the war? The philosophy, in essence, is this: It is economically expedient to send military forces to Vietnam and elsewhere in Asia in order to wage war, because in doing so, the United States' economy is bolstered and maintained at a high level of prosperity; human life is secondary to the preservation of economic well-being!

It is thus evident that, unless a drastic change is made in the structure of your economy, war will never end because the Military-Industrial complex WON'T LET IT!

Many of you fear Communism. Where did that fear come from, I ask you? From within yourself? NO! It was brainwashed into you by the Military-Industrial complex. Who controls all your news media? The government and the advertisers. Who, then, is in a position to dictate what shall be printed?

PAST CONVENTIONS & SAUCER ACTIVITIES:

FEBRUARY 5, 6, 1966: Dr. Frank E. Stranges' 4th Annual UFO Space and Science Convention was held at the Blarney Castle Inn Annex in Los Angeles.

JUNE 4, 5, 6, 1966: Dr. Daniel W. Fry's Man in Space Symposium took place at Dunsmuir, near Mt. Shasta in Northern California.

JUNE 25, 26, 27, 1966: Buck Nelson's 10th Annual Spacecraft Convention was held at Buck's Mountain View Ranch; Route 1, Box 236; Mountain View, Mo.

BACK ISSUES of UFO INTERNATIONAL are now selling 11 issues for \$3.00, while they last (issue #11 is now out of print). There is much timeless and valuable information available in these magazines.

OUT OF PRINT: 1. FLYING SAUCERS: TOP SECRET by Major Donald E. Keyhoe is now out of print, although it is listed in our new brochure. (Some saucer books have occasionally gone out of print without notice.)

2. BACK ISSUES #6 and 11 are now out of print. We still have only a few copies left of #9 which we have priced at \$1.00 each in an effort to preserve them for serious researchers and collectors. Please do not order these items, or any other materials which we do not advertise.

PRICE CHANGE: The price has gone up on two of the better known books in the saucer field, which we must now order from England: 1. THE SKY PEOPLE by Brinsley le Poer Trench, was \$4.65. It is now \$5.10, postpaid. 2. ROAD IN THE SKY by George Hunt Williamson, was \$4.15. It is now \$5.10, postpaid. California residents please add 4% tax.

"UFOI" ISSUE #23 CORRECTIONS: Page 4, line 3: the date should be April 24, 1964, instead of 1965. On page 4, line 1 of the 7th paragraph, insert "later, via telepathy" after "They told him ---."

SEATTLE, WASHINGTON area residents please note: AFSCA Unit #25 meets every 4th Friday at the Seattle Public Library, Room 325 at 7:30 P.M., under the capable direction of Mr. Leverett G. Tallman. The meeting is free, and all who are interested in the Flying Saucer subject are invited to come to listen and to participate in the discussion.

ZIP CODES ARE IMPORTANT: If the address label on this magazine does not have your zip code number on it, please notify us as to what your number is. If you don't know your number, call your local Post Office and then let us know. Thanks!

AFSCA BROCHURES AND SAUCER-PHOTO POST CARDS, sent to friends and acquaintances, are a good way to help spread the word about Flying

Saucers. Brochures are 1¢ each (this just about pays the postage to mail them to you). Saucer post cards are 50 for \$1.00.

WHEN WRITING AFSCA, if you wish a personal reply to a specific inquiry, please enclose a stamped, self-addressed envelope. No replies can otherwise be sent. General information may be obtained via our brochures and magazines. We are sorry that we cannot have a lengthy correspondence with all the hundreds of persons who would like us to do so, but unfortunately we have neither the time nor the staff for it - and our mail has been greatly increased in the last few months.

SAUCER NEWS CLIPPINGS: Your response has been wonderful! We've received so many clippings from you helpful people that we simply hadn't enough space to print all your individual names and cities. So we say a big and sincere THANKS to all of you. And please do keep 'em coming! (One reminder: please DON'T write on or near the clippings.)

WEDDING BELLS rang on Saturday, June 4, 1966 for contactee Elary J. Willsie and Sophia Martinez Olivares of Mexico City. The ceremony took place at Los Angeles, California. Among those present were Sophia's parents and her younger sister, all of Mexico City; Mrs. Maud Willsie, mother of the groom; and your editor, who was also official photographer for the occasion. Mr. and Mrs. Willsie will live in Los Angeles. Congratulations and best wishes, Elary and Sophia!

MEL NOEL, former Air Force Lieutenant and fighter pilot, is fast becoming very well known for his lectures on his amazing experiences with Flying Saucers while on active duty in the service. He has been speaking to capacity crowds wherever he goes. On Thursday, June 23, 1966, the personable Mr. Noel spoke to a standing-room only crowd at the Aeronautical Sciences Building on Beverly Blvd. in West Los Angeles. We hear that he is booked to speak at 57 colleges across the nation! Recently he appeared on the Louis Lomax TV Show, and has been heard on many radio shows. He leaves shortly for Mexico City, where he has been invited by an official government group to speak. He has been promised some interesting experiences by a local contactee there, and we look forward to hearing his report on his return! Good work, Mel, and good luck!

SID PADRICK, contactee from Watsonville, Calif., who spent two hours aboard a space craft, was recently in Los Angeles when he was guest speaker at the regular monthly meeting of the Inglewood Unit of Understanding on Saturday, June 25, 1966. Meetings are held on the 4th Saturday of every month at the Inglewood Business and Professional Woman's Club; 820 Java St., Inglewood, at 8:00 P.M. Donation is \$1.00. Information: Mrs. Roberta T. Forrester, Program Chairman; P.O. Box 146; Inglewood, Calif. 90306. Phone: 677-5214. Also, Mr. and Mrs. Lee Yates. Phone: 293-4743.

NEW AFSCA UNITS:

45. AFSCA Unit #45; Everett, Washington; Ray and Jean Sebring, Co-Directors; 1032 S.W. 126th St.; Seattle, Wash. 98146.
46. AFSCA Unit #46; Ben Blazs, Director; 3057 Electric; Lincoln Park, Mich. 48146.

Several other new AFSCA Units have been formed and will be listed in the next issue (#25). Persons interested in forming AFSCA Units in their cities should contact AFSCA Headquarters for information.

The Military-Industrial complex, by opinion-control through the use of psycho-politics (brainwashing by controlled news management).

Consider this: In order to survive, a commercial medium, such as a newspaper or magazine, requires a vast amount of advertising revenue. The mere subscription fees will not cover the costs. Thus, they depend for their continued existence upon money paid by advertisers. Suppose, then, that the editor of a certain newspaper decides that he is opposed to the Vietnam policy, and says so in his paper. The advertisers simply say to the editor, "Either you toe the mark and print what we want, or we'll withdraw our advertising."

Such pressures are a fact of life. The newsmen are torn between their higher devotion to Truth, and also to the lower level of their physical needs. Rather than jeopardize their security and their futures they, of course, submit meekly to power. Their actions are fully understandable, and we do not hold them responsible.

We throw the blame directly on the Military-Industrial complex which, by its underhanded dealing, threats of force, and economic pressure and retaliation, has crushed the spirit of American journalism and turned it from a dynamic motivating force in American life into a weak-willed, subservient mouthpiece for the power-masters. We blame them for the death of journalistic freedom and individuality!

One more comment on this topic: May I say that a better economic system is already known to the leaders of the Flying Saucer Movement. It is the system known as Universal Economics. As we have said over and over before, it is the non-money economic system which MUST be applied on your planet before you can start to resolve most of your major problems and thus begin to establish a highly-advanced, non-destructive state of existence on Earth, such as we of more advanced planets have enjoyed for so long. INVESTIGATE THIS SYSTEM to evaluate it for its merit — then ACT to apply it! YOUR VERY SURVIVAL AS A CIVILIZATION MAY DEPEND UPON IT!

Perhaps this is an opportune time to clarify a few questions which have been asked about us.

Do we of Korendor work with the local planets in our operations? Yes, we do cooperate with them a great deal. However, our work on Earth is relatively independent of the local planets. We have many times overstepped what is considered to be the limit of interference upheld by Venus, Mars, and other planets. This has caused a good deal of debate between them and us. Each time we have pointed out that we of Korendor are basically pragmatic in nature. Although we do respect the laws of self-destiny, we feel also that where stepping in is required to prevent disaster, it is our right and our duty to do so.

We have interfered in such places as the United States, China, Russia, and on a large scale in Vietnam. This has caused no end of consternation in the local Tribunal of Planets. We are sympathetic to their viewpoint, but we do feel that their policy is limited in its capacity to achieve the desired goals. It is our opinion that one cannot stand on the sidelines and achieve any noticeable results.

As I have said before, we have infiltrated your planet. We are directly involved in Earth's life. You might say that you have been invaded — a strong way of phrasing it, to be sure, but nonetheless factual, since we walk and work amongst you daily!

We have been asked about our physical appearance. We are humanoid, indistinguishable from yourselves, except that in our natural form we average three to four feet in height. Every other dimension is proportionately scaled, so that photographs of us would not reveal our origin in any way.

We are able to increase our height while on Earth through a technical process related to telepor-tation. It is concerned with recording the atomic and molecular structures of our bodies, and then reproducing them identically on a larger scale. Differences in our internal structure are adjusted by the computer which controls the reproducer.

Our most common skin color is a little darker than yours, although we have skin colors which vary as yours do all over the Earth. Usually, however, we would look "tan" to you. We are NOT green, blue, or heliotrope, as has been suggested!

Concerning our language, we generally use one of two tongues and we are fairly familiar with a third. On Korendor itself we speak the native language, Korendian. It is similar in many ways to your own languages since it, like yours, was originally derived from Galingua, one of the two universal tongues. The other is Solex Mal, which is more familiar to you, since it is used by your local Solar System planets. It is seldom heard now in our sector of space, as Galingua has replaced it almost completely.

Unlike your own, however, the Korendian-Galinguan speech is very rhythmic, and has few sibilant sounds, such as "s" or "z". Some of the sharper sounds like "c" and "k" are minimized. It is a beautiful language which is very musical and pleasant to hear.

Perhaps you would be surprised to learn that ancient Latin was liberally taken from Galingua. There are many similarities in the two languages. Even modern English has roots on other worlds!

In concluding my message to you, may I say — people of Earth: open up your minds and your hearts to the world around you. There is so much to be learned, so much to be discovered. Don't waste precious hours and days in bigotry and ignorance, and in senseless fighting and killing. To do so is truly a crime against nature and humanity.

At this stage where you have the very stars almost in your grasp, how irrational and barbaric it is to spend futile hours warring with your brothers. As an old saying on your world puts it: "As you make your bed, so shall you lie in it." The decision does not seem difficult. Here are the alternatives: A world living in harmony, justice, security and abundance for all, or a world continuing to reap the bloody harvests that grow from the seeds of hatred and mistrust. If left to their own devices, the majority of mankind will forge onward to a destiny of destruction and annihilation, oblivious to the danger in their actions. They are short-sighted; they care little for the future.

It is you New Age people, dedicated to the welfare of all mankind, and having the vision and understanding of the ways to build the better world of tomorrow, who must lead the way. You have the future in YOUR hands, if you will but shoulder your responsibilities. The Flying Saucer Movement, as you call it, belongs to you. Support it in every way possible. Help it to grow until it is influential throughout your world. Go out into the world and guide the misguided, find the lost, and recover the strays. We are behind you all the way. As we have said many times before, we will take two steps for every one that you take to help yourselves.

The time has come for nations to "bury the hatchet", to clasp hands, and plunge into the future together — in co-operation toward mutual goals.

Look to the heavens and realize that your destiny is not in bleak atomic desolation, but in the magnificent greatness that you can achieve if you will but work for it. Choose the right path and you will soon qualify to join with us in our journeys amongst the stars.

Va i Luce (Go in Light)."

OUR NEW NAME: Our magazine, formerly called "UFO International", has now become "Flying Saucers International", which we feel to be a more appropriate title, since Flying Saucers are no longer Unidentified Flying Objects as far as we are concerned. Flying Saucers have become a serious issue with thinking people all over the world. We believe that most of the objects which have been sighted have been of extraterrestrial origin, controlled by intelligent beings who, in form, are very much like us. Therefore, we hope you will understand our reasons for changing titles, and that you will continue to enjoy reading our publication under its new banner.

DR. RAYMOND BERNARD, founder of the Biosophical Society of Santa Caterina, Brazil, passed away on Sept. 10, 1965. He was the author of "The Hollow Earth" and several other books concerned with the hollow earth theory.

MARIA ELLIOTT, contactee, psychic and founder of Maria Creative Womanhood Foundation, was a recent guest on the Bob Grant Radio Show, and the Pamela Mason TV Show. Glamorous Maria now has her own program every Tuesday afternoon at 2:30 p. m. on KTYM radio. She may be seen in person every Wed. evening at Holland House Restaurant, 8:00 p. m. in the downstairs meeting room. An interesting program may be heard on New Age Topics, and free readings are given. For more information about Maria's appearances, classes, etc., phone 657-1631, or write: Dr. Maria Elliott; 1543 Sunset Plaza Drive; Los Angeles, Calif. 90069.

DR. GEORGE KING, founder of the Aetherius Society, was host at the official opening of the Society's new headquarters at 6202 Afton Place; Los Angeles, Calif. 90028; on March 5, 1966. After the program Dr. King personally escorted us around the attractive quarters. He also reported that a high Space Being in physical form had visited there recently for an hour and fifteen minutes and, after

walking around the premises, left his blessing on the Aetherius Society and its work. For further information call 465-9652, or write to the above address.

DELLA LARSON, who for over a decade was the guiding light and main instigator of Flying Saucer meetings and activities in the San Francisco Bay Area, passed away on October 25, 1965. She was 70 years old. She will be remembered for her energetic and enthusiastic dedication to the goals of the Flying Saucer cause, as well as for the highly successful annual Northern California Space Craft Conventions which she organized for nine years. (Della, we salute you!)

MAX MILLER, former publisher of the now-defunct "Saucers" magazine, and author of "Flying Saucers: Fact or Fiction" (now out of print), has a new role. He is now editor-publisher of "Real" magazine which may be found on the newstands for 50¢. The August '66 issue devotes about half of its space to the Flying Saucer subject and will be well worth your investigation.

WILBUR MILLER, one of the early researchers in the Flying Saucer Movement, passed away on March 5, 1966. He was known for his fine channel contacts with several Space Beings, including Monka of Mars. He also was the co-author — with his wife, Evelyn — of the book "We of the New Dimension." Although he was a native of Missouri he had, in recent years, been a resident of Los Angeles and of Morongo Valley, Calif. (Good journey, Will!)

HOPE TROXELL, founder of the School of Thought, now situated in Independence, Calif. (P. O. Box 458), reported recently that the neighboring towns of Bishop and Lone Pine had partial blackouts during an evening channel (teltpathic) session she was having with the Space Brothers. The lights in Independence went out completely for several minutes by a gradual fade-out, and then came on again in the same manner. During this time, the Space Being speaking through Hope said to those present: "Be not afraid. We are guardians of the race. Protection will be given to those in the area."

HAL WILCOX made a fine guest appearance on the Joe Pyne TV Show, April 30, 1966. Hal passed the lie-detector test with flying colors and conducted himself with dignity and fortitude, which isn't always easy on the Joe Pyne Show. During the test, Hal stated that he had taken a saucer ride to visit the second planet from the star, Alpha Centauri.

M. I. N. D. stands for Mental Investigations of New Dimensions, an organization recently formed by Wesley and JoNell Bateman. Their activities include meetings, courses and public appearances. They have demonstrated on several occasions for groups of up to 20 people, their ability to telepathically direct the movements of visible spacecraft overhead. Write: M. I. N. D.; 4916 Franklin Ave.; Hollywood, California 90027. Phone: 661-1731.

HELEN & GABRIEL GREEN contributed their bit to the education of nearly 300,000 young people to the saucer subject at the Teen-Age Fair, April 1 thru 10 at the Hollywood Palladium, where AFSCA had a booth to exhibit saucer photos, show slides, and to disseminate information. We handed out over 13,000 brochures and saucer photo post cards, and talked ourselves hoarse answering questions for 12 hours each day. Gabriel also made over a dozen radio and TV appearances and interviews during the Fair.

We also had another booth at the National Aviation and Aerospace Exhibition at the Pan Pacific Auditorium, May 17 thru 22. Yes, we've been busy!

Tracked by Radar
UFOs Sighted Over Wide Section of District

An unidentified flying object was tracked briefly on radar by a U.S. Air Force base in Michigan last night, and a multitude of new sightings were reported by Western Ontario residents.

Woodstock. The mysterious objects came in a variety of forms, according to their observers. There was an orange one at Sarnia. And another giving off red, white and blue flashes.

Ontario sightings came from London and Sarnia. Mrs. J. Fielding, of 1025 Oxford St. E., London, reported seeing a white light in the northeast sky, headed toward Stratford at 7:25 p.m.

Thordale, a mother and her two children saw a white light, "quite high in the sky, that seemed to be blinking." Mrs. J. H. Haynes, of Kintore, said "there was no sound and we watched it for 10 minutes, anyway. It would brighten up, then it would dim down."

SPACE AGE SONGS by Mollie Thompson

THE COCKEYED BALLAD

There's a cockeyed feeling in the world today
That power politics is here to stay.
But China, Russia and the U.S.A.
Boy—don't let them fool you!
Take a look at this world of ours,
Just one mud ball in the sea of stars.
Other planets have no color-bars,
'Cause they've got perspective.
Yanks and Ruskie's put men into space,
But it's all a mad politician's race,
One-up-manship in this Year of Grace.
It makes you giggle.
The population stands and stares,
While men in capsules explore upstairs.
Why we can't even manage our own affairs!
Some cheek—colonization!
Besides, they've got people on Venus and Mars.
They got lads and lasses and ma's and pa's.
And they've got better transport than four-wheel cars.
Have you ever seen 'em?
Those Flying Saucers whisking through our skies
Must take some power to make them rise.
But government departments just hide their eyes,
And call them meteors!
With all the lies that they print and shout,
The general public's got its work cut out—
Figuring what it's all about.
But just you keep on trying.
I suppose you know why I'm telling you this,
So you won't shriek or shake your fist
When you discover Martians do exist!
They're real nice fellows.
I know, 'cause I met one a week ago!
His ship came down for an hour or so.
He talked to me, but then he had to go.
Real interested I was!
Got brothers on Venus and Saturn, it seems—
Fly their ships on magnetic beams.
They wear one piece suits—you can't see any seams;
But apart from that—they're just like us!

SPACE-TALK

The powers that be will tell us we're alone.
They'll tell us that in space we are unique;
On this little desert island we call Earth
The human race is just a kind of freak.
When we send our envoys into space
There'll be a smile upon this planet's face,
'Cause brother, right out there—I'm telling you,
There's another human race; it's very true!
They're a very, very peaceful crowd,
For they just never go to war.
And they cannot interfere,
This is by Universal Law.
The spaceman's message to us all
Is based on how to banish fear,
And if we only understand,
We will find it heaven here.
While we must rely on war,
We never will be happy here.
While this world's economy
Is based on hardship, strife and fear.
How do they live without a war
In their lands of milk and honey?
They don't need economy,
Because they don't use any money!
They cannot give us any ships,
So we must try and build our own.
But they are waiting right out there,
Oh, my friends, we're not alone!
How do they go at such great speed,
And vanish then without prediction?
Because they use free energy,
And there isn't any friction.
Brother have you seen their ships?
Sisters have you seen them glow,
As they dance and hover in the sky,
And make our fastest jets look slow?

NEW SAUCER PHOTOS: These remarkable photos of Flying Saucers were taken by Dr. Daniel W. Fry, President of Understanding, Inc., of P. O. Box 76, Merlin, Oregon 97532. Your editor enlarged them from the original 16mm color movie film. Spots on the photos are due to the extreme enlargement of scratches and dust spots on the film. Of special interest is the fact that the same type of craft was photographed near Merlin, Oregon in a wooded section, and again near Joshua Tree, Calif. on the desert.

New 'Fireball' Raises An Old Question: Do Flying Saucers Exist?

Californian, Who 'Talks' to Men From the Stars, Says 'Yes'; Scientists Assail Air Force

By ELLIOT CARLSON
Staff Reporter of THE WALL STREET JOURNAL

They're back. The latest was sighted a few nights ago by residents and pilots in the northern tier of states and Canada. They described it as an orange fireball. The Air Force at first called it an unidentified flying object, but now thinks it was a meteor. Some other people called it a flying saucer.

Several people say they saw the fireball last Thursday night. An 11-year-old boy in Lorain, Ohio, says he watched it drop into the woods near his home. A woman in Elyria, Ohio, 10 miles away, claims she saw it plunge into a vacant lot across the street from her home. Others say they saw it streak into Lake Michigan. Scientists and police combed a 75-acre area near Pittsburgh after a woman there saw the object crash to earth "smoldering."

Despite these witnesses and search efforts, however, the thing has yet to be found. In this regard, it is like all other unidentified flying objects, or UFOs, which are mysterious because they are seen but never found.

Whatever it turns out to be—meteor, satellite, part, hoax, weather oddity or man from Mars—it appeared in a banner year for such objects, which almost disappeared from public consciousness following a rash of reports of flying saucers in the mid-1950s: "We've had more reports this year than in any year since 1957, when we had more than a thousand," says a spokesman for Project Blue Book, the Air Force program set up in 1948 to evaluate reports of the phenomena.

Visitors From Outer Space

Nobody knows what the objects are or where they come from, but there is no lack of theories—or of controversy. The Amalgamated Flying Saucer Clubs of America, Inc., is sure the "saucers" come from outer space. How do they know? The "space people" have told them.

Not only that, says Gabriel Green, who heads the California group, "space people give contactees information about life on other planets and solutions to insurmountable problems on our planet." One suggestion allegedly made to Mr. Green in 1960 by a visit from Alpha Centauri, a nearby star: Run for President as a write-in candidate. (He campaigned briefly, then decided not to run.)

The National Investigations Committee on Aerial Phenomena (NICAP), a private research organization in Washington, doesn't hold with that theory. "We reject reports of noble beings landing on earth to solve all our problems," says a spokesman. So men from Mars are a lot of bunk? Not necessarily, says the committee. It believes a Congressional investigation would prove that UFOs "are real physical objects . . . under the control of living beings." As an afterthought, the spokesman says: "There are a tremendous number of egomaniacs who have been able to appoint themselves experts in this field because it's so confused."

One man who's not confused at all is Charles A. Maney, professor emeritus of physics and mathematics at Defiance College in Ohio. Says the professor: "These objects are unquestionably from outer space." He bases his reasoning on the fact that the objects often interfere with local electrical circuits, indicating to him they have "a means of propulsion associated with magnetic fields."

"There's Nothing To It"

Such notions are scoffed at by astronomers, however. "All this is imagination outside the realm of science," says Donald H. Menzel, director of the observatory at Harvard. "I have examined Air Force cases and discovered that UFOs all have simple explanations in terms of well-known natural phenomena. There's not one cause, but hundreds. Some are quite spectacular, such as reflections from ice crystals or bright stars, searchlights on clouds or high-flying spider webs. But to some people the existence of flying saucers is a matter of religious fanaticism," he says.

But Mr. Menzel reads more into the Air Force data than does the Air Force itself. Of the 9,786 UFO reports made to the Air Force since 1947, 673 remain classified as "unidentified," a spokesman says. He defines this category as containing sightings whose pertinent data can't be correlated with any known object or phenomena.

The spokesman quickly adds: "We have neither received nor discovered any evidence that proves the existence of intraspace mobility or extraterrestrial life and we continue to extend an open invitation to anyone who feels he possesses any evidence of such vehicles operating in our atmosphere." And he states: "No UFO report evaluated by the Air Force has ever given any indication of a threat to our national security."

The Air Force's approach disturbs some people, however. "The Air Force should admit there are natural phenomena taking place under our noses of which we know nothing," says I. M. Levitt, director of Fels Planetarium at the Franklin Institute in Philadelphia. He adds: "The Air Force is trying to explain something that isn't susceptible to explanation."

Robert Risser, director of the Oklahoma Science and Art Foundation planetarium at Oklahoma City, believes "the Air Force must have had its star-finder upside down during August," when several reports of flying saucers were ascribed by the Air Force to sightings of stars. "The constellations of Taurus and Orion weren't visible at the time the Air Force said the sightings were made. I think they made an error."

The whole problem, says J. Allen Hynek, chairman of the department of astronomy at Northwestern University and a consultant to the Air Force, is that the matter should be studied more thoroughly.

"Pressures to conformity in academic circles and fear of ridicule have slowed the study," according to Robert Hall, a sociology professor at the University of Illinois in Chicago.

"The possibility of life on Mars is an unpopular thing to consider these days," says Frank B. Salisbury, a professor of plant physiology at Colorado State University. At the risk of being unpopular, Mr. Salisbury told the fifth annual Space Conference this year that "there may be some natural explanation of these things, but a tentative possibility to be considered is that UFOs are spaceships from Mars."

Fueling the flying-saucer controversy has been the large number of reports from what many people consider reliable witnesses—pilots with technical backgrounds. Since 1947, more than 100 private, military and commercial pilots have reported spotting strange objects in the sky, according to one study.

Pinning down such reports is difficult, however. "Some of the boys did report things they couldn't identify a few years ago," says a spokesman for American Airlines. "But our pilots haven't made a report for years."

Nevertheless, "we have on file a great number of reports from pilots who don't want their names used but still want to tell somebody what they've seen, claims J. B. Hartant, Jr., president of the Aircraft Owners and Pilots Association. And he says: "I haven't drawn any conclusions myself, but I think we've certainly got a good mystery on our hands."

Disc-Like Object Hovers, Rises For Two Hours East of Kettle Point

By JIM ETHERINGTON
Free Press Sarnia Bureau

SARNIA — A revolving object, sighted in the sky east of Kettle Point last night, was watched for more than two hours by about 100 persons.

Lawrence Bressette, who operates a store on the Kettle Point Indian Reserve, said a motorist brought the object to his attention about 8 p.m. He said he looked at it through binoculars and could see red, blue, green and white lights flashing from the disc-shaped object.

Mr. Bressette said it remained motionless for about an hour flashing lights, then slowly began to rise. Cloud cover rolled in about 10 p.m., allowing only periodic sightings.

"I've never seen anything like this," he said. "We all saw it. It was low—about 200 or 300 feet off the ground to the east. Then it slowly began to move up."

Mr. Bressette said it could not have been swamp gas which was suggested as the cause of unidentified flying object sightings in the Detroit area last week.

"I've seen swamp gas lights. This was not the same," he said. "Besides there hasn't been any swamp gas lights around here since before the war."

Mr. Bressette said his brother, Jeffery, also reported seeing an object over Sarnia. This one stayed stationary for a short time then shot across the sky at a very high speed.

An officer in control operations at Selfridge Air Force Base, Mount Clemens, Mich., said the Canadian sighting was the fourth reported to him last night. The other three were from the Detroit area.

He said no radar reports had been obtained on any of the sightings.

Mr. Bressette reported jet planes in the area at one point while the group watched along the Lake Huron shore. But there was no possibility the object he saw was a jet.

In Michigan new reports of

UFO sightings were received Saturday night as far north as the tip of the "Thumb" in Lake Huron.

Odd lights were reported in the sky over Oakland County and the neighboring Detroit area. Others were reported westward in the Lansing area.

Dr. J. Allen Hynek of Northwestern University, scientific consultant to the U.S. Air Force said phenomena seen at Dexter and Hillsdale on the night of March 20 probably were the result of swamp gases.

Sheriff Douglas Harvey of Washtenaw County and civil defence director William Van Horn of Hillsdale County criticized Dr. Hynek's report. Van Horn said the swamp gas explanation was an attempt to "explain it away arbitrarily."

Flying Saucers Gain Proponent

N.Y. Daily News Dispatch

NEW YORK — The nephew of the late Dag Hammarskjold has startled America's top science writers by telling them he believes that flying saucers exist and that they come from outer space.

Knut Hammarskjold, whose late uncle was secretary general of the United Nations, spoke to a convention here of the aviation-space writers association.

Hammarskjold also suggested that our space neighbors are becoming more and more interested in what people are doing on earth.

"The possible existence of neighbors in space will, if confirmed, create problems of legal, political and technical characteristics," he said.

PEOPLE in North Queens- land are mystified by three separate reports of Flying Saucers.

The first report came from a 27-year-old banana grower, Mr. G. Peckley, who while driving a tractor through a neighbouring property on his way to his own farm, heard a loud hissing noise above the noise of the tractor.

Suddenly about 25 yards ahead of him, a blue-grey saucer shaped craft about 25 ft across, and 9ft high, rose vertically to about 60ft and travelling at a terrific speed headed off in a south-westerly direction.

On investigation, a nest of flattened reeds was found, the circle being about 30ft in diameter and since then four other nests have been found close by, some of them newly made.

During the last eight months, no less than seven different sightings of Flying Saucers have been reported in the North Queensland press.

Hundreds of sightseers have flocked to the Horseshoe Lagoon in the Tully District during the last few days to view the circles which are partly hidden by dense scrub.

The RAAF has taken the reports seriously enough to ask for clippings from the nests which will be examined, and any further flying saucer sightings from the area will be investigated.

STRANGE OBJECT OVER MT. WILSON

A-2 Los Angeles Herald-Examiner

There was something over Mount Wilson early today but it didn't catch the entire city napping.

Police and newspaper switchboards were flooded with calls describing the object variously as a "puff," a "greenish ball," a "flat oval green object with a long tail and a light at the end."

It was first sighted about 4 a.m. and remained in view for about half an hour.

A similar fireball was sighted about the same time from Sacramento and from Vandenberg Air Force Base, it was reported.

Vandenberg reported no launches during the preceding 24 hours which might account for the phenomenon and said radar

there picked up "no unusual activity" during the period.

An Air Force spokesman at Vandenberg said the Air Force's "Project Blue Book" office in Washington was investigating.

An observer at Mather Air Force Base near Sacramento theorized that the object may have been gas residue left from Nevada missile firings which reflected light.

Sgt. David Tellotson, of Hollywood division, said the object here appeared to be over Griffith Park. "It was a bright green spot, elongated, and not blinking," he said.

The only solid fact emerging: A lot of people are up at 4 a.m.

**Head Saucer Believes
Martians Are Watching Us**

**Who's in All
Those Saucers?**

By Harold Scarlett

Was Jesus Christ a Martian? "It's hard to say," said Gabriel Green thoughtfully. Then he added that it certainly seems plausible.

It's no trick at all to walk on water or ascend to the heavens if you have a Martian levitation belt around your waist and an anti-gravity beam to ride, Green explained.

Furthermore, he said, the Martians now visiting earth by flying saucers are trying to save the earth's people from their own follies — just as the Savior was.

Green can speak with some authority on these matters because, he says, he met and talked with a Martian once. Also a four-foot man from the Alpha Centauri star system. Also some other unearthly visitors.

SOMETIMES, HE said, he met these flying saucer crews by telepathic appointments. These were arranged through associates of his with telepathic talents.

"And once in a while," he said, "they would just call on the phone."

Green, who lives in Los Angeles, is the head saucer — the president — of the Amalgamated Flying Saucer Clubs of America.

Not being too telepathic, he just called Green on the phone to interview him about the recent rash of flying saucer sightings around the country.

"It is a continuation of their efforts to enlighten us," Green replied in calm and cultured tones.

"The current series of sightings and landings, I understand, will increase. They are not going to go away, as some members of our government would like."

WHY DO THEY keep buzzing down here and scaring people? "What with nuclear proliferation growing, it seems rather obvious that unless we start resolving the present problems facing mankind, we will destroy ourselves and perhaps some of the universe along with us," Green explained.

"This is one of the primary reasons why the extra-terrestrials started making visitations in 1947, shortly after we developed this ability — to watch over us and if possible to impart their advanced scientific, technological and sociological knowledge to help us re-

From B. C., the Post, May 9, 1966

solve these problems before we destroy ourselves."

Green said he is trying to do his humble best to help them spread that message.

"The solutions they have given," he said, "deal primarily with resolving the motives for wars, expansionism and poverty. They hope to eliminate the have-not nations . . . through superior financing. They have an advanced economic system they call Universal Economics. The economics part of it is what I personally am trying to transmit."

HE SAID RUEFULLY, however, that the saucer clubs themselves are in an economic pinch that has prevented needed research.

Green said he runs the saucer clubs out of his own home, at 2004 North Hoover in Los Angeles, "to cut down on the overhead." He said there are clubs in 50 major U.S. cities and abroad, with a total of about 3,500 members. Houston has no club, he said, but he does have some interested Houstonians on his mailing list.

"We are a contact-oriented research group," he said, "meaning that many of our members have made actual

Cartoon by Flanigan

physical contact with crews of these craft."

Green said he has sighted 85 to 100 spacecraft around Los Angeles over the years and has met "half a dozen or so members of the crews."

BUT GREEN BELITTLED his own experiences.

"They're so insignificant it's hardly worth talking about them," he said. "Some of our members have actually been taken for rides in spacecraft."

"I certainly wouldn't turn down a ride if it were offered me. But they've never asked me."

Green said he met the Martian by appointment at a friend's home, and he looked "just like anybody you'd meet on the street." He was casually dressed, Green said, and wore a short-sleeve, shimmering, metallic-looking shirt which he said would stop bullets.

In all, he said, a handsome chap, Green said.

"I felt his hair and it was quite coarse and worn in a V-shape down to the center of the forehead," Green said. "But I rather doubt all Martians wear their hair alike, any more than we do."

HE SAID THE MARTIAN canals were really canals for distributing the short water supply from their polar regions, and that the two Martian moons are really artificial satellites just like the Russian astronomers have supposed."

Green said he had met the Alpha Centauri man several times — once in the Green home.

"He was dressed ordinarily and was about four feet tall, although this was unusual. Most of the reports of them are that they are normal height or larger," Green said.

"There was that space ship that landed near Albuquerque, for instance, with a crew of four men and five women. They were very beautiful, very well proportioned. Seven to nine feet tall."

Green said he had met other interstellar travelers but would "rather not go into the whole list."

Where do they park their space ships while they're visiting him? "OH, SOMETIMES they actually park them — hang them up in the sky with a force field around them. Then they have an anti-gravity beam and levitation belts they wear around the waist to get on down to earth."

"Through these, they can accomplish such miracles as walking on water and ascending into the heavens."

Green said he is 41 and was a photographer with the Los Angeles Board of Education until he resigned in 1959 to try to help the spacemen save civilization.

Green said naturally he asked to take the spacemen's picture, but they refused and he abided by their wishes.

"An associate of mine once tried to sneak a couple of flash pictures," he said, "but two times the flash gun wouldn't fire, even though the camera was in perfect working condition."

"THAT DEMONSTRATES the powers of the mind of these people. Just

like Uncle Martin on 'My Favorite Martian.'"

Green said he had never seen one of the unearthlings beside his space ship. Then how could he be sure they weren't a hoax — practical — joking earthlings just putting him on?

"Oh, I wouldn't believe just anyone who walked up to me and said he was from Mars," Green replied.

"But if you get a call from the White House and were told President Eisenhower would meet you at a certain time on the corner of Hollywood and Vine, and you went there, and a man there who looked like the President called you by name, wouldn't you believe he was Eisenhower?"

Green said he once asked a spaceling to prove himself by disappearing.

"BUT HE REFUSED and told me to walk away," Green said. "He was on a balcony five floors high, and I walked down a hallway for three or four seconds and turned and looked back and he was gone. There was no logical place for him to go from that balcony."

Green believes the spacemen are undoubtedly friendly, just as they profess to be, or otherwise they could have destroyed the earth long ago.

"They say they want nothing from us but our friendship," he said. "They would never destroy us. This would be a violation of their code of life. They reverse all living things."

Apparently they do have lapses, though.

"There was one decision that if any nation on earth fires a nuclear warhead, it will fall back on the people who fired it," Green said. "I don't know what their latest decision has been."

HE EXPLAINED that he hasn't been in contact with a spaceman for two or three years now.

Green said people from many planets are visiting earth, and that accounts for the wide variety of flying saucers being sighted.

One of his favorites is the Venusian scout ship. That's the one about 50 feet in diameter with the three protruding semi-spheres on the bottom and the portholes around the cabin.

Green said it is operational only within 5,000 to 10,000 miles of a planet's surface. He said it comes down from a cigar-shaped mother ship that parks up there. The mother ship can make interplanetary trips.

At this point we decided to end the interview. The long-distance line to Los Angeles had begun making an eerie whee-ee and then an ominous blup-blup-blup.

Maybe the Martians were listening.

More than five million Americans claim to have seen something they believed to be a "flying saucer." And, about times as many people — nearly half of the U.S. adult civilian population — believe these frequently reported flying objects, while not necessarily "saucers," are really not just a figment of the imagination.

These are the principal findings in a nationwide Gallup survey of the American people on this subject, whose survey percentages are translated in numbers of people.

Since late in the 1940's, military officials have been investigating hundreds of reported sightings of unidentified flying objects.

Recent rash of sightings prompted a Congressional hearing last month and also this special survey.

How do typical Americans feel about flying saucers? How many people have seen them? Do they really or imaginarily? Do people believe there is life, as we know it, on other planets?

More than 150 Gallup Poll interviewees have been questioned about typical Americans — men and women, people of all ages.

In all educational levels and every region of the nation, the vast majority of their statements and views reveals the following:

First, almost everyone (98 per cent) has at least heard or read something about flying saucers. For something to be publicized as these objects, this finding may, at first, seem unusual. However, terms of the history of the use of the awareness of other incidents or events, this figure is extraordinarily high. In 1947, the first reported sighting of a flying saucer was in the northwest Detroit area.

Northwest Precinct police station had three reports, Schaefer one, and Palmer Park, one.

On Monday, 7:20 p.m., seven-year-old Mike Woods, 8418 Faust, states that he saw a very high object with white lights heading north from the southwest, in the Faust-Van Buren Avenue area.

Eddie Crank, 77, 19749 Greenview and his companion, Robert Spallone, 15, 19743 Greenview, observed an object over Crank's home at about 8:20 p.m. Crank said that the UFO came within the west, stopped for a moment and then was last seen going east, with lights changing from the color red to green and then amber.

At 9:30 p.m., sixteen-year-old Michael Sedia, 12810 Virgil saw something with a white light traveling very fast near Virgil and Glendale. He claims also to have seen it at the same time on Sunday night.

A 39-year-old man reported to the Schaefer precinct that he had observed something with red, yellow and green rotating lights at 11:17 p.m. Stewart Hall, 8549 Abington, saw the object near his home, stating that it was visible for about a minute.

Karen Ellington, 17, 15587 LaSalle, was walking the front door of her home about midnight, when she noticed an object in the sky. It appeared to be about 150 yards away, according to the police report and stood motionless over the John Lodge Expressway, near Linwood. It was approximately 500 feet in the air, 3 feet long with a red light on the left and a green light on the right.

Miss Ellington told police that the object stopped twice and lights started flashing. Its path of travel was from the east to the west.

She said she had seen others around the first of May.

UFO Plays Tag With Deputies in 85-Mile Chase

RAVENNA, O., April 17 (UPI)—Two Portage county sheriff's deputies followed a "bright circular" unidentified object Sunday from Atwater, O., to Freedom, Pa., a distance of 85 miles.

Deputies Dale Spaur and W. L. Neff were investigating a routine traffic accident at 9 A.M. when they were alerted by radio to be on the lookout for an object heading their way.

Spaur, an Air Force gunner during the Korean War, said the circular object "about 30 feet in diameter traveled at speeds from 80 to 100 miles an hour."

"It was about 1000 feet in the air and was extremely bright," Spaur radioed to the

rightly so bright he couldn't look directly at it. Franklin and his crew reported the sighting to police who also viewed the object.

The two deputies were joined in the chase at East Palestine, O., just across the State line from Pennsylvania, by East Palestine Patrolman Wayne Huston.

Huston said the object appeared larger than an airliner and leveled in a straight line. He said it would change altitude suddenly.

"It was a funny thing," Huston said, "but when the object got too far ahead of us it appeared to stop and wait."

Wilson said at one time Spaur reported the object "was something like an antenna protruding from the bottom, hovered above the cruiser in which Spaur and Neff were riding."

Wilson said that Spaur and Neff were questioned by an "Air Force colonel" in Freedom. (Air Force headquarters at Greater Pittsburgh Airport said it had no report on the UFO.)

"The chase lasted about 50 minutes and, in that time, the object was reported seen by at least six or seven other department, both in Ohio and Pennsylvania," Wilson said.

Neff, a one-time Seabee, agreed with Spaur in the description of the object and added that it "had no wings."

Wilson said the object "was caught by radar" in Pittsburgh. He said that at least seven jets from the Cleveland-area headed for the object after it was reported.

(The control tower at Greater Pittsburgh Airport said it spotted no UFOs on its radar screen.)

Mysterious Sky Objects Have Texans in Dither

MEMPHIS, Tex., May 17, four-foot strip of what appeared to be tin and aluminum.

Mrs. Ernest Lee, whose home is 3 miles southeast here, spotted something hovering in the air

about 3/4 miles distant at 4:10 p.m.

Duncan and several friends tried to pursue the object, "cone-shaped and silver looking" in a car and it appeared to halt near the Salisbury community 5 miles south of Memphis. As they drew near, however, it swept away at high speed.

World Flying Saucer Believers Convene

2-6-66

MINNEAPOLIS TRIBUNE

New York Times Service

LOS ANGELES, Calif. — The "urgent problem" of improving communications with the thousands of visitors from outer space who supposedly are circling the earth was afforded solemn deliberation here this weekend at a special convention of flying saucer buffs.

Among the nearly 300 delegates was a self-professed "interplanetary traveler" named Standing Horse, an Englishman who regularly issues mimeographed reports on her conversations with space travelers, a man who offered to book "group sightings" of flying saucers and a presidential candidate campaigning on the flying saucer ticket.

THE SPACE buffs, who assembled in a cavernous establishment called the Blarney Castle, weren't much impressed with Thursday's Soviet moon landing, but they were awed and confused by what they reported to be a sharp increase in flying saucers.

One delegate, Marianne Francis, warned that the sightings could mark the beginning of some "ominous changes" for the earth's population. But the convention chairman, Dr. Frank Stranges, said the "interplanetary visitors" would turn out to be "angelic creatures whose mission is to help mankind."

The delegates were generally well groomed, articulate men and women who could have blended into any PTA meeting. Many were heads of organizations whose members spotted and photographed "unidentified flying objects" and claimed to maintain telepathic communication with space travelers.

NEARLY ALL agreed that what they called the "flying saucer movement" was undergoing sharp expansion. Two delegates announced they were negotiating to purchase radio stations to help transmit their theories. Several flying saucer magazines and hundreds of books were on sale at the convention.

"These people are contact-oriented," explained Gabriel Green, a serious young man who served as president of the Amalgamated Flying Saucer Clubs of America.

Flying Object Sighted in Illinois

NORMAL, Ill.—(UPI)—Several persons living on the same block here said they saw an unidentified flying object last night.

The object had four blinking lights, red, white, blue and green, proceeded north-easterly, hovered over a grove of trees, then returned southwesterly. The object was seen first by the Merle Simpson family, then others. They said it was flat and small.

"They accept spacecraft as a fact of life. Their interest is in contacting spacemen directly or through telepathy."

Green, who regularly runs for president as a "space age candidate," says he cannot practice telepathy but insists he has met spacemen on at least six occasions. The last of his visitors, he said, was four feet tall and came from the Alpha Centauri solar system.

A muscular, even-featured young man named Wesley Bateman said he never had met spacemen but that he was in "constant communication with them through telepathy" and offered a program of instruction to other delegates who sought similar contacts. His blonde wife, Jonell, attired in black Leotards, was kept busy signing up "students."

"There is no mystery as to whether the space men are watching us — some have already infiltrated our society," said Bateman. "The mystery is why so many are coming. What's going to happen?"

Flying Saucers

(To the Editor, S.C.M. Post)

Sir,—Citizens beware! This is not a drill! If you report what you see, your report will be treated as hallucination. Your honest desire to help solve an aeronautical mystery will be discounted by harassing confrontation by paid investigators who are instructed to suppress the authenticity of their investigation.

The UFO Project research has been operative continuously for more than 20 years. The scope and extent of this project is a carefully guarded subject. During that time it has maintained a continuous status of "Classified Information." The only information released by the U.S. Air Force for publication is periodic reports of a few selected cases of mistaken identity—such as the report to this newspaper on February 1, by Dr Allan Hynek: "In Search Of Flying Saucers."

Honest, sincere observers no longer report UFO sightings to accepted authority. (Why continue to slap your own face?) For several years actual sightings of spaceships are compiled at Flying Saucer Clubs all over the world. Amalgamated Flying Saucer Clubs of America (AFSCA) maintain a comprehensive information department that registers Club activities, and reports from all over the world. Anyone can write to AFSCA, 2004 N Hoover Street, Los Angeles, California 90027, U.S.A., and receive a concise, conscientious report about any information life is seeking.

We don't need to search for Flying Saucers—we only need to acknowledge their presence. Actually we are on one of the strangest UFO's in the universe. Our "Friends" who are now investigating us cannot understand our belligerent attitude toward their conscientious effort to contact us.

PASADENA (AP)—Scores of startled residents called newspapers and police after sighting what they described as blinking, moving lights in the skies over the San Gabriel Valley last night.

Officers said some residents saw the lights "travel fast, then slow, then stop." They said one Pasadena area resident reported the smell of perfume as the lights appeared and moved.

2 SOUTH AFRICAN POLICEMEN REPORT SIGHTING OF 'SAUCER'

JOHANNESBURG, South Africa—South African police and scientists investigated Thursday a report that a flying saucer-type object had landed on a main highway near Pretoria, the country's administrative capital.

Two patrolling police officers reported seeing the flaming "saucer," about 30 feet in diameter, shortly after midnight. One of them, Koos de Klerk, said that the shiny copper-colored object resembled a giant spinning top.

The two men claimed that, as they approached the object, it took off silently at great speed with flames shooting out of its underside.

Scientists who examined the spot where the officers said that they saw the object are reported to have found that a six-foot wide section of the tarred road had been badly burned. Grass on either side of the highway, also was reported slightly scorched.

PC REPORTS 'I SAW 6 FLYING SAUCERS...'

DAILY SKETCH

Tuesday, May 17, 1966

POLICE CONSTABLE Donald Cameron made out a report last night and hoped the Chief Constable would believe that he really DID see six flying saucers.

Pc Cameron was at home on sick leave when he looked out a window and saw six glowing objects hovering in the distance. "I thought I was seeing things and called my wife," he said last night. "We watched them for about 30 seconds before they disappeared at speed towards Manchester."

Police Kept Busy Spotters Jam Up-County Roads for UFO Glimpse

RINGWOOD — If the little men from outer space had the up-county police on the run Tuesday, their earthy counterparts caused more trouble Friday night.

Throngs of the curious ringed normally deserted Wanauke Reservoir in this small hamlet and created what old timers say is the first traffic jam in the history of the borough. The cars parked along Westbrook Road and Route 511.

It'll be Long Before "Saucer" Is Forgotten

THE HERALD-NEWS

By PETER A. DVARACKAS
Herald-News Sports Writer
Many months will pass before the impact of the strange flying objects which dominated the North Jersey skies this week fades into memory.

The bright white disk that streaked across three counties and hovered periodically over the Wanauke Reservoir will provide an ample amount of conversation for weeks to come. Indeed, thousands of eyewitnesses know well the story of that mysterious terrestrial stranger.

Not that the tale of the flying saucer is over yet. Investigators from the National Investigation Committee on Aerial Phenomena (NICAP) may arrive today in Upper Passaic County from Washington D.C. to probe the UFO sightings.

Dr. George White, an electronics expert, and Dr. John Pegano of Fort Lee will investigate the scene of the unidentified object and then report back to NICAP. Announcement of the impending study was made by Richard Hall, assistant director of NICAP.

Nightly Vigil

Police at Wanauke, the state's largest water storage basin, continue to maintain a nightly vigil at the headworks, in Ringwood Avenue and Westbrook Road to spot that weird disk of light which was seen as late as Thursday night making sharp dips and maneuvers over the reservoir.

It was Tuesday at 6:30 p.m. when residents, motorists, municipal officials, and police glanced up at the sky and began the first chapter of an aerial

mystery which has yet to be solved.

"Listen . . . this sounds crazy, but I saw something in the sky. Do you know what it is?" This was the question posed to the police at the North Jersey police radio hook-up in Pompton Lakes. The calls came in from Wanauke, Ringwood, West Milford, Paterson, Totowa, Wayne and Butler.

Astounded residents were searching for an explanation. Even the police were dumbfounded. They too saw the white oval hovering in the heavens from their prowls cars.

The UFO was described then as a white and garishly bright disk, two feet in diameter.

According to observers, the odd movements of the mysterious visitor was enthralling. Some felt as if it were "toying" with police, citizens and borough officials by performing dives almost into the reservoir; at times appearing "as if it were looking down" upon the spectators from a silent stationary position high in the heavens and by making neat right angles as if it were using the sky as a chalk board.

Made Several Stops

The UFO then made quick stops at various locations in the community: Lakeland Regional High School, the Houdaille sand pit, the overhead bridge in Ringwood Avenue . . . and then it disappeared.

Hours later at 2:15 Wednesday morning, it re-appeared over Wyckoff and five minutes later it was spied over the reservoir in Wanauke where police say it almost came to rest at the top of the 1,500 foot long Raymond Dam. It was gone at 4:15 a.m.

Police, reporters and residents saw the disk as it whisked over Wanauke and Ringwood both Wednesday and Thursday night.

The story of the mystic sky visitor is not without intrigue. The United States Air Force released a number of reports which August Roberts, a member of the International Intelligence on unidentified Flying Objects claims are "a whitewash."

Initially, when the object was first sighted, the Air Force said it was an official helicopter with a strong beacon. A few hours later Air Force jets were spotted by police flying over the Wanauke.

Experiment?

Roberts theorized the object "might possibly have been a government experiment in the creation of an anti-gravity machine."

As yet nobody really seems to know what the UFO was or where it came from. Some say it is a balloon, others, men from Mars.

But this is not the first time a UFO has been sighted over the Wanauke. Some 18 years ago Charles Capen, former chief engineer of the North Jersey District Water Supply Commission said he saw something that looked very similar to the object described in the newspaper.

Reservoir police claimed to have seen something "round and bright" two weeks ago, over Lilly Hill in Stonetown and Board Mountain near Sloatsburg Road, according to Charles Theodore.

Dean Noll, assistant engineer, for NJDWSO does not believe that the UFO might have been a mysterious attempt to pollute the water supply. There are "easier ways", he said.

Throngs of interested persons are still lining the perimeter of the reservoir to catch a glimpse of the brilliant phantom that has, for the moment, vanished into the ether.

the sky, however had failed to make a return appearance Friday.

Since the sightings, Tuesday, both Wanauke and this borough have been overpopulated with television cameras, newsmen and the curious.

Eerie 1896 Sighting

By JIM HAZELWOOD
The so-called unidentified flying objects (UFOs) seen Sunday in Michigan by at least 60 people, recall a bizarre story which appeared in The Tribune 70 years ago.
The date was Nov. 23, 1896, and it reported that many persons saw an "airship" flying over Oakland.
But this date was 10 years before the Wright brothers made the first successful heavier-than-air flight at Kitty Hawk.
Aerial balloons, however, had been known for decades.
The Oakland "airship" was the talk of the town for days and a number of other sightings were reported, from as far away as Red Bluff.
Although the original story said the craft resembled a "huge bird," later sightings described it as egg-shaped with lights at both ends.
It should be borne in mind that shapes of aircraft and estimates of airspeed were still estimates of the future when the following story, reproduced in part, was written.

"That a huge airship has been hovering over Oakland for the last few nights has in the past been conclusively proven. A number of persons whose integrity is unquestionable have seen the strange navigator of the air and this number includes many whose skepticism has been pronounced.
"Last evening at about 7:30 o'clock, the passengers on an Alameda car were startled by the sight of a brilliant stream of light high in the heavens off in the direction of Hayward.
"The passengers distinctly saw the outline of an airship and watched its maneuvers high in the sky. The ship resembles a huge bird in its outlines and seemed to rise and fall in its course. A light streamed from the head of the ship, throwing a white stream of light for several hundred yards.
"As the outlines of the airship were plainly discerned, the passengers of the street car became greatly excited.
"The phenomenon had first been noted by a man who had been idly watching the heavens.

As soon as he perceived the light, he attracted the attention of the other passengers and all, intensely interested, watched the peculiar machine as it made its way through the sky.
"It was high in the heavens. It appeared to be of huge size. When first seen, it seemed to be floating over San Leandro. It moved rapidly, going at least 20 miles an hour. It shot across the skies to the northwest, then it turned quickly and disappeared in the direction of Hayward.
"Not only was the airship seen by the passengers, but many other residents of this city distinctly saw the brilliant light and the huge bird-like body floating in mid-air.
"None of the spectators were acquainted with each other and yet their stories are startlingly similar, agreeing as to time, direction of the airship, and description."
"These facts leave little doubt in the minds of many people that a successful airship has been invented and is navigating the heavens."

87 Coeds Observe 'Object'

HILLSDALE, Mich. (UPI)—A county civil defense director and 87 co-eds said today they watched an eerie, hovering flying object settle in a swampy hollow near a college dormitory last night.
William Van Horn, 41, Hillsdale county civil defense director for 10 years, said he watched the unidentified object through binoculars for three hours.
It was the second straight night a large number of witnesses reported seeing weird unidentified flying objects in Southern Michigan. Sunday night a dozen policemen and at least 40 other persons watched a similar object, guarded by four sister ships, land in a swamp about 45 miles northeast of here near Ann Arbor, Mich.
SCIENTIFIC CONSULTANT
The Air Force announced it was calling in Dr. H. Allen Hynek, chairman of the Dearborn Observatory at Northwestern University, Evanston, Ill., and scientific consultant to the Air Force's UFO study program, to investigate the rash of sightings.
Hynek will work from Selfridge Air Force Base at Mount Clemens, Mich., the Air Force said.
Van Horn said he joined the 87 Hillsdale college co-eds and their housemothers to watch the object. He said it emitted warring orange, red and white lights and appeared to hover just above a swamp some 1,000 to 1,500 yards from the dormitory.
It was still there when he left about 1:30 a.m. today, he said.
"It was definitely some kind of vehicle," Van Horn said. He said it changed from orange to red, perhaps with a rotating light of some kind, and had a white light at one end.
"From all appearances it did not appear to be sitting on the ground as it moved back and forth across the ground," he said.
HAMOPERATORS
Thunderstorms lashed the area as Van Horn and the college girls watched from a second floor dormitory window. Police sent three squad cars but officers reported the object was not visible from the road.
Van Horn said he saw three similar objects in the air Friday night. He said William Villard, coordinator of a ham radio club of some 40 youths, has reported several UFO sightings in this area during the past 10 days.
Van Horn said he could not establish the object's shape.
"Through the glasses it was either round or oblong," he said.
"I think that what makes the light on these things change colors is that they are rotating in a circular motion."
Van Horn was called by girls at the dormitory. The co-eds reported the object alternately glowing red, white, blue and other colors.
They said it rose up and down, appearing to stop its ascent and sink again just when it was about to move into the glow from a nearby airport beacon light.
Its vertical and horizontal movements were too fast for any airplane, the girls said.
The announcement that Hynek was being called in came from Selfridge, a base near Detroit which dodges newsmen's inquiries Monday about the object seen in a swamp near Ann Arbor.

ENCOUNTER WITH A SPACE SHIP 'I Know What I Saw'; Egg-Shaped Craft

By KEITH GEORGE
Newark Valley—Gary T. Wilcox is a young man dogged by rumors.
People say his dairy farm has gone bust because nothing will grow on the land.
Others who meet him on the street express surprise, saying they'd heard he was in a New York City hospital suffering from radiation burns.

GARY WILCOX

One story has it his land is under guard for government study and that there is a darkened patch in his pasture where nothing will grow.
The handsome, 28-year-old farmer says none of these tales is true.
But the stranger of all, and the basis for the rumors, is his encounter with a space ship and his talk with its eerie crew 17 months ago.
That happened, Mr. Wilcox says.
"I know what I saw for two hours. I was talking with them and even joking with them."
Mr. Wilcox touched the metallic-like, egg-shaped craft and heard its strangely garbed occupants explain in smooth English they were from Mars, he said. When he turned to get them a bag of fertilizer, as they requested, the ship lifted off the ground and was out of sight in seconds, he recalled.
In the weeks after he reported the incident to the Tioga County Sheriff's Department, a group of people visited his farm by the dozen.
They included men who said they were from government agencies and others who identified themselves as officials of the IBM Space Guidance Center in nearby Owego, the farmer said. Most were just residents who wanted to see the landing spot for themselves.
One man who also claimed

the farmer was in a hayloft, pitching down feed for the nocturnal snack of his cows.
"I only have so much time to get this work done, so I can't stop," he said. "This is the kind of work you should be doing," he joked. "Talking cars of 40 cows and working at another job, too."
Mr. Wilcox was an afternoon and evening job as janitor at Berkshire School.
"I don't know where all these stories are coming from now. I thought it was all over last year, but now everybody is talking again."
"The best one is about me being in a New York City hospital with radiation burns. People have said they heard it on the radio. I've never been in a hospital in my life."
"These some woman put in the newspaper that there was no grass growing where that thing landed. There was never much growing there. But there's corn now."
"Nobody ever talked to me about these things. They just keep telling stories."
In answer to a question, Mr. Wilcox said his sighting of the mysterious craft and its crew and the widespread speculation over the report has not hurt his personal life.
"I just don't worry about it. I know what I saw and other people have seen things. I even thought somebody was playing a joke on me, but I was in the service for six years and I see even jet planes take off that fast."
If he had it to do over again, would he keep the incident a secret?
"No. I've got nothing to hide. I would report it if I saw another one today I'd do the same thing. Then people would say I'm crazy."
Mr. Wilcox, who is unmarried and lives in the village, feeds and cares for the stock in the mornings. A man whose family lives in the hamlet of the 200-acre farm does the milking. Mr. Wilcox also owns a farm near Owego where he grows feed crops, he said.
He gives the impression that he would like to believe the whole episode was a joke of some type, yet knows it wasn't. He said he thinks that eventually the explanation will be supplied, to him and the rest of the world.
"A man down in Berkshire says he saw something like this recently, too. I'm not the only one."
The two human-like creatures whose features were hidden under uniforms and hoods, may not have been space travelers, he said.
But he has no better explanation.
On his way home, the reporter stopped at a diner and invited flying saucer conversation from the waitress.
"That's where they say it landed," she said, pointing out the window. "Right over the hill. I don't think he was stretching the truth. He's a reliable man and if he says he saw it, I believe him. If you see there's a spot up there where no grass will grow because of the fuel it was using."

* GALLUP POLL

Than 5 Million People They Saw Flying Saucers

This awareness score is one of the highest in the 30-year history of the Gallup Poll.
Are flying saucers a hoax? Philip Easter of Baltimore, Md., told one of our interviewers this story: "It was dark and I had just come out of a building. I looked up and saw this object hovering in the dark sky above me. It was very bright and stayed in several positions for several minutes. At first I thought it was a planet, but I knew it couldn't be because of the way it moved."
Harold Strope tells of the time last June when he was driving through Topeka, Kansas:
"It was very late—about 2:30 in the morning. I saw this un-identified object in the sky ahead of me. It was extremely bright and I could notice a greenish hue. By the time I stopped the car and got out, it had disappeared."
A New Jersey housewife was startled during the night recently:
"It was about three in the morning," she relates, "I was suddenly awakened by a very bright light outside. I got up and looked out the window. The whole area seemed to be lit up like a phosphorus fire. I could hear strange sounds, like the ringing of bells. I know it sounds strange, but the next day several people about 20 miles away reported a similar experience and at almost exactly the same time."

Further analysis of these data show that flying saucer sightings are not necessarily a phenomenon of certain population groups. Similar proportions of college educated persons, and those who have not gone beyond grade school claim to have seen them.
Real or Imaginary?
Are flying saucers real or imaginary? We asked this question, with surprising results. Although the Air Force claims that nearly all of the reported "saucer" sightings are easily explained, as meteors, weather balloons, swamp gases, planets, etc., more Americans think they are "real" than believe they are "imaginary." Forty-six per cent for about half of the U.S. adult population hold this opinion, while 29 per cent describe them as "a figment of the imagination." The rest cannot make up their minds.
This represents quite a change in public attitudes toward the credibility of "flying saucers" since a Gallup survey conducted

almost 20 years ago. At that time—shortly after the flying saucers were first noted—four out of every ten called the saucers either a hoax or the product of some overhated imagination. In 1950, another Gallup survey showed that attitudes had begun to change. More persons that year held the view that the saucers were a reality. In weighing what evidence there is about the credibility of flying saucers it is important to note that while most of the reported sightings have been explained, according to Air Force reports, there are still many sightings without explanation. Persons with college training are more likely to believe in the reality of flying saucers than are persons with a high school background, or less.
Among those persons who believe flying saucers have an explanation, that is, those who think they are "real!," here is how they describe them:

- 1) Experimental projects, Air Force tests
 - 2) Actual vehicles from outer space
 - 3) Burning gas, "swamp gas"
 - 4) Meteors, shooting stars
 - 5) Weather balloons
 - 6) Supernatural revelations
- Those who believe they are from outer space account for 6 per cent.
- Life on Other Planets?**
Do people who are living in this space age believe there is life, as we know it, on other planets?
Many scientific authorities believe that intelligent life must exist elsewhere in the universe, because the statistical odds are large that there are millions of planets in the universe enough like our own to support life, as we know it.
One person in every three (34 per cent) who participated in this survey said they believe life does exist on other planets. Again, persons with the most education are most inclined to believe in the existence of intelligent life on other planets.

Sheriff Aides Chase A UFO; Were 'Close'
RAVENNA, Ohio (AP)—"We were close, closer than I ever want to be again," said a deputy sheriff who chased an unidentified flying object from Ohio into Pennsylvania.
Hundreds of persons in both states reported seeing the "brilliant and shiny" object early Sunday morning.
Police Chief Gerald Buchert of Mantua, about eight miles north of Ravenna, said he took a picture of the object from his front yard at the Air Force told him not to release it.

THE SHEBOYGAN PRESS, Monday, April 18, 1966
Buchert said it looked like "two table saucers put together."
Portage County Deputy Sheriff Dale Spaur said he and his partner, W.L. Neff, "were close" to the object in separate cars and chased it 86 miles for an hour and a half, from near Ravenna to Conaway, Pa., near Pittsburgh.
Spaur said he clocked it at speeds up to 103 miles per hour. From the ground Spaur said it looked like the head of a flashlight, about 40 feet wide, and 18 feet high.
Spaur said the lines of the object were very distinct. "Somebody had control over it," he said. "It wasn't just floating around. It can maneuver."
